

The Plexis Claims Manager Advantage: Rules-based Processing Power

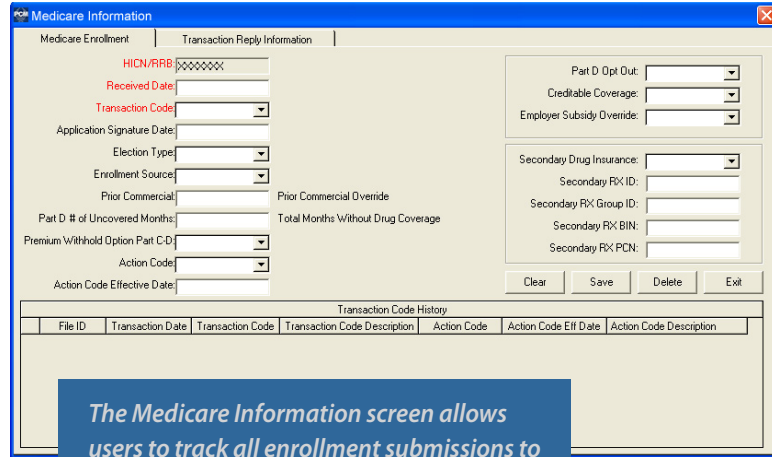

Plexis Claims Manager, an integrated benefits administration, claims processing and reporting system with a flexible rules-based engine and familiar Windows user interface, includes key Medicare Advantage capabilities:

- **Prompt payment interest calculations** In accordance with CMS prompt payment regulations
- **Administer dual eligibility claims** Identifies members with dual eligibility; processes claim separately for Medicare and Medicaid; coordinates the Medicare and Medicaid benefits.
- **Anesthesia processing** Using CMS conversion factors and fee schedules
- **Member application tracking through enrollment**
- **Multiple address tracking for MA enrollees**
- **Premium billing for Parts C & D**
- **ID card generation**

Streamlines processes to save time, money, achieve CMS compliance and improve customer satisfaction

Plexis provides the tools to automate the administration of Medicare Advantage benefits according to CMS requirements. From capturing enrollment data and sending via EDI to CMS, executing RAPS encounter data extracts, and administering dual eligibility, the Plexis software solution handles Medicare's interfaces and requirements, accelerates processing time and accuracy, and provides customer service representatives with the information necessary to improve customer satisfaction.

The Medicare Information screen allows users to track all enrollment submissions to CMS; view enrollment transactions from the Transaction Code History grid; view TRR history from the Transaction Reply Information tab; and storing TRR/MMR data within the database allows users the ability to create their own reports.

About Plexis Healthcare Systems

One of the fastest growing claims processing software developers in the healthcare

market-place, Plexis has provided cost-saving solutions for healthcare organizations since 1996. Plexis is a designated small business and minority owned business, headquartered in Ashland, Oregon. Plexis serves healthcare payer organizations across the United States as well as international clients.

A Certified Microsoft Partner, Plexis Healthcare Systems' benefit administration tools employ the very latest Microsoft technology and are highly rated by independent healthcare consultants. The company is also a selected partner in Microsoft's Connected Health and Human Services (HHS) alliance.

Plexis software and services enable healthcare organizations to reduce costs, streamline and automate their claims payment and medical case management requirements, increase profitability and enhance customer satisfaction while helping them meet all current governmental regulations, including HIPAA.
